

***How will you know if the vote count is accurate this election?***

# **HELP WANTED ELECTION DAY**

“Foot soldiers” are needed to volunteer a few hours end of election-day to capture Precinct election results. The goal is to verify vote counts in Cuyahoga county.

## **NON PARTISAN, CITIZEN-LED INITIATIVE**

This “**Vote-Count Protection**” effort is designed to provide “checks and balances” to the **secret vote counting inside electronic voting machines.**

No skills necessary! Materials and training provided.

Your time on election day will help ensure accurate counts – and keep Ohio “clean!”

**Project Post** will take 1 to 2 hours to capture “posted results” at a polling place at the end of the evening. ***Easy, especially if you are already working at a polling place!***

**Citizen Exit Poll** will take 4 to 6 hours participating in citizen-run election-verification exit polls (using professional polling methodology). ***Fun!***

Already engaged in an election day activity? Get Out the Vote, Poll Worker, Election Protection, Video The Vote, taking-people-to-the-polls, etc? You can still help out with this by spreading the word. Flyer is available at: <http://www.ohiovigilance.org//Flyer.pdf>
